

ALISHA DANIELLA

AGRICULTURE STUDENT

SUMMARY

Motivated Agricultural Sciences student specializing in Agronomy and precision agriculture. Proven experience in field research, crop scouting, and soil sampling from both academic projects and hands-on internship roles. Skilled in utilizing modern precision data systems to improve field efficiency and crop health. Seeking an entry-level Agronomist or Crop Consultant role to optimize crop yields and sustainable practices..

CERTIFICATIONS

- Private Pesticide Applicator License | Indiana State Chemist Office (Active)
- FAA Part 107 Remote Pilot Certificate | Federal Aviation Administration (For Drone Mapping)

EDUCATION

Purdue University, West Lafayette, IN

Expected Graduation: May 2027

Bachelor of Science in Agricultural Sciences (Concentration: Agronomy)

- GPA: 3.65
- Relevant Coursework: Soil Science & Fertility, Integrated Pest Management, Grain Crops, Weed Science, Precision Agriculture Technology.

TECHNICAL SKILLS

- Field Operations: Crop scouting, tissue/soil sampling, irrigation monitoring, fertilizer calculations.
- Ag-Tech Software: SMS Advanced, John Deere Operations Center, ArcGIS Pro, Climate FieldView.
- Equipment & Tools: Soil probes, handheld chlorophyll meters, drone deployment, tractor operation (John Deere 6R Series).

EXPERIENCE

Agricultural Research Intern

2024 - 2026

USDA Agricultural Research Service, Beltsville, MD

- Participated in multi-acre field research assessing cover crop effectiveness in suppressing weed growth.
- Utilized specialized soil probes to extract and categorize 120+ soil samples for laboratory moisture tests.
- Measured and logged dry biomass of experimental clover and vetch plots to evaluate organic matter accumulation.
- Identified 15+ local weed variants and recorded field distribution data to map high-infestation zones..

CAMPUS INVOLVEMENT

- Active Member | Purdue Alpha Zeta Agricultural Honor Fraternity | Sept 2024 – Present
- Student Volunteer | Tri-State Crop Scouting Competition | August 2025
- Assisted event coordinates by setting up field testing stations and directing 50+ high school participants through testing parameters.
