SUMMARY

"Detail-oriented Mechanical Engineering College student with hands-on experience in CNC Milling and AutoCAD. Proven ability to troubleshoot technical issues and work effectively in fast-paced lab environments. Seeking an entry-level Mechanical Engineering role to apply practical training."

EDUCATION

Tekno University | California

Bachelor of Science in Mechanical Engineering (Expected Graduation: May 2028)

- **GPA** : 3.8 / (Dean's List 2026)
- **Honors** : Dean's List (All semesters), Engineering Department Merit Scholarship
- **Relevant Coursework** : Thermodynamics, Fluid Mechanics, Computer-Aided Design (CAD), Material Science

TECHNICAL SKILLS

- **Software & CAD** : SolidWorks, AutoCAD, MATLAB, Ansys (FEA)
- **Programming** : Python, C++, MATLAB
- **Machining & Lab** : CNC Milling, Lathe, 3D Printing, Oscilloscopes, Multimeters

ORGANIZATIONS

American Society of Mechanical Engineers (ASME) | Member,
September 2025 – Present

ENGINEERING PROJECTS

Autonomous Robotics Design Challenge (Academic Project) | July 2025 – Present

- Collaborated in a team of 4 to design, model, and manufacture a package-delivery robot using SolidWorks.
- Programmed autonomous navigation algorithms in Python utilizing sensor feedback from ultrasonic and infrared sensors.
- Reduced structural prototype weight by 15% through structural topology optimization using finite element analysis (FEA).
- Won "Best Mechanical Design" out of 32 student teams during the final course competition.

WORK EXPERIENCE

Engineering Intern | ABC Manufacturing Corp, City, State | May 2025 – August 2025

- Assisted senior engineers in troubleshooting automated assembly line bottlenecks, improving throughput by 8%.
- Updated 50+ outdated component engineering drawings to conform with modern ASME Y14.5 geometric dimensioning and tolerancing (GD&T) standards.
- Authored standard operating procedures (SOPs) utilized for training incoming plant floor technicians.
