Dear Hiring Manager,

I'm pleased to submit my application for Construction Manager with ARRC Contractors Inc. I'm a construction professional with three years of experience in construction management and an additional four years of experience working on a construction team. The opportunity to join a well-established and respected national company like ARRC Contractors is truly exciting, and I look forward to adding my talent to your team.

My father worked in construction, so I grew up surrounded by tools and terminology. After graduating from high school, I joined my first official construction crew. I worked hard to bring as much value as possible to my team, even completing additional safety and equipment certifications. After two years, I moved on to my current company, which gave me the opportunity to work on large projects throughout Washington state. I earned a promotion to Construction Manager and have led my team through seven major contracts, contributing to the 32% increase in company revenue over the last two years.

I believe that teamwork, communication and safety are the most important elements of a functional construction crew. As a manager, I use those same principles to collaborate with clients and form connections that last across multiple projects. I've managed small projects on quick timelines and major projects with large budgets. In the future, I hope to expand my work nationally. This is one reason I'm interested in working with ARRC Contractors Inc. It would be an honor to collaborate across the nation with such a wide network of talented construction professionals.

I believe I have the skills, knowledge and experience to thrive in the position of Construction Manager at your company, and I look forward to bringing my ambition, technical knowledge and team-oriented values to ARRC. If you've any further questions, please feel free to contact me by phone or email at the information listed above. I look forward to further communication.

Sincerely,

Adrian William
